- All design specifications should be modernized, well planned and meet with customers requirements
- Attention to detail and ingenuity are essential qualities in the design process

*Precision Tooling*

## Injection Moulding

- Injection moulding machines from 40 to 1,380 ton
- Computer controlled systems
- Robot-arm injection systems
- De-Humidifier equipment
- Clean room for food product & specific requirements
- Mould maintenance is carried out in house

## Materials

- Poly Propylene (PPHD, PPLD, PPCo.Po)
- Poly Etherline (PE)
- ABS (Low & High impact)
- Polycarbonate (PC)
- Acrylic
- Nylon
- Low cost recycled materials

## Finishing, Packing, Assembly

- Hot stamp
- Ultrasonic
- Heat transfer film
- Pad printing
- Screen Printing

# Products

## Automotive

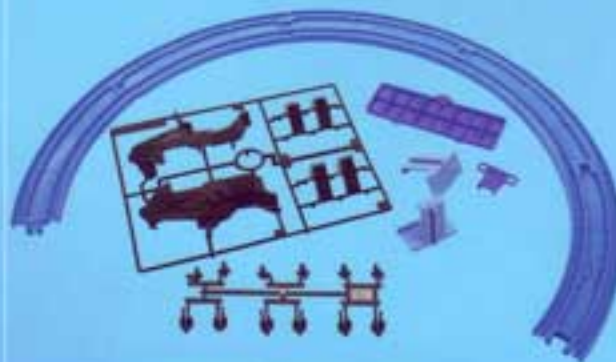

## Appliance

## Pet Products

## Kitchenwares, Toys, Baby, Cosmetic

## Engineering Components

## *Blow Moulding*

- Container capacity from 50 cc to 1,000 cc
- Single & two hand machines
- Computer controlled

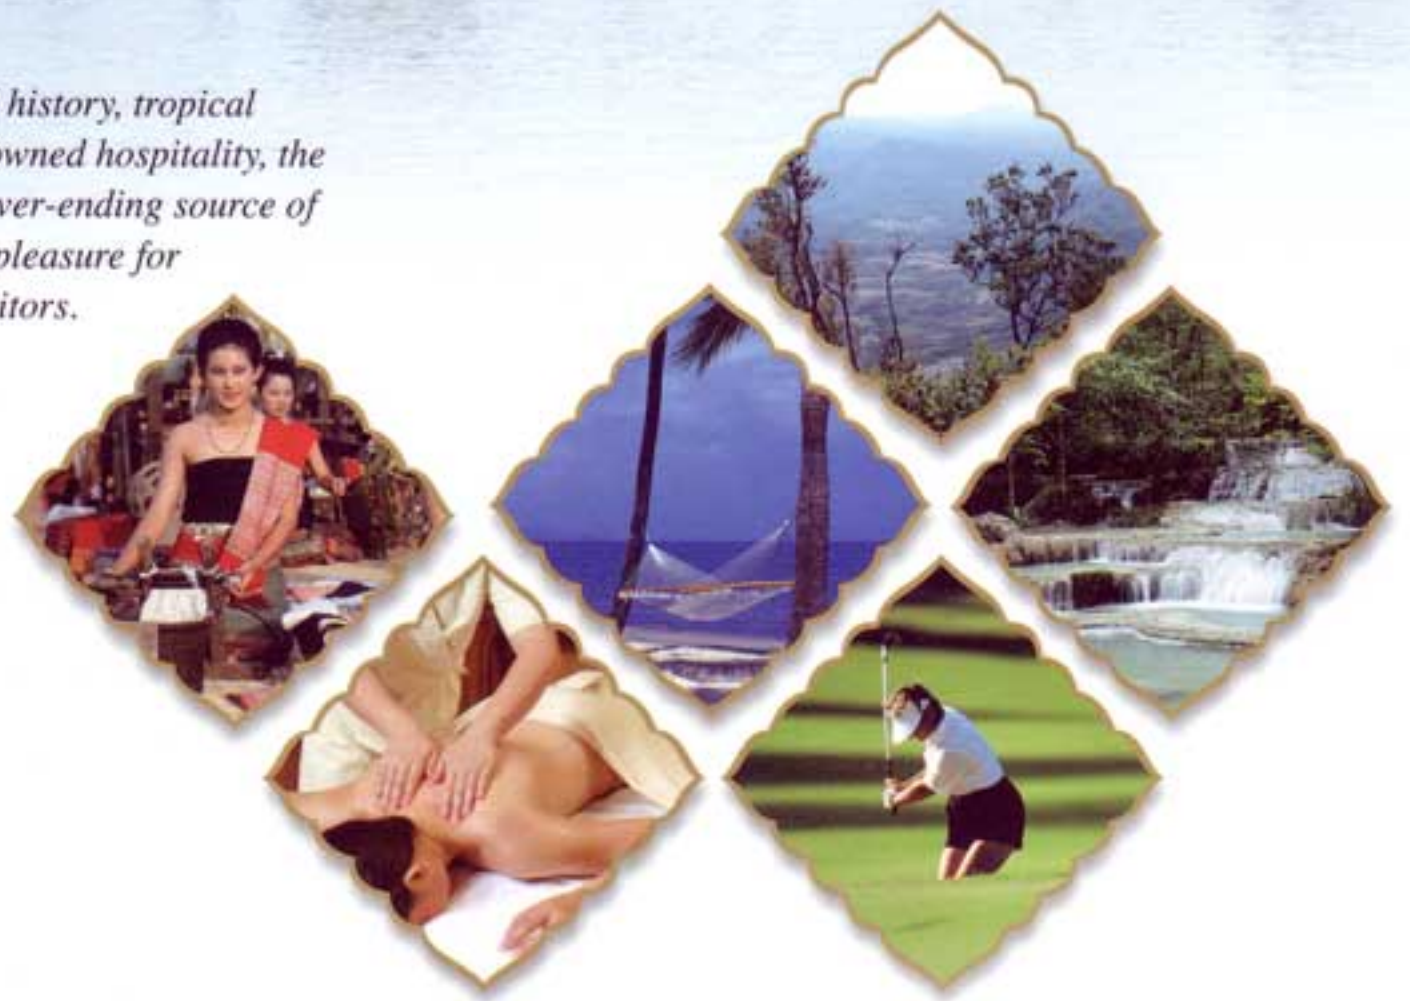

## *Warehousing / Distribution*

- Our 10,000 sqm. Warehouse facility allows for storage of customers products to meet just in time deliveries
- Worldwide direct shipments, on site container loading

*With its proud history, tropical climate and renowned hospitality, the Kingdom is a never-ending source of fascination and pleasure for international visitors.*
